

Water Premium Recovery

Allied Bakeries

Allied Bakeries

In excess of £785,000 was refunded and saved throughout Allied Bakeries bread division sites across the UK.

Our Team were tasked by the ABF group baking division of Allied Bakeries with the aim to reduce their water cost at their sites around the UK.

Following a detailed appraisal of the historic water billing, we were able to identify many incorrect cases of overcharging relating to water billing and effluent billing.

After delving into the minutia of the billing and gathering a greater understanding of business operations and the effects it has regarding water usage, we identified a wide range of mischarges and issues rooted in historic water billing errors. Working with Allied Bakeries we were able to claim back up to 6 years under the statute of limitation (this is 5 years in Scotland).

As a result of our findings we were instructed to negotiate a rebate on behalf of Allied Bakeries. As a result we were able to deliver to our client a rebate in excess of £785,000, leaving them pleased with the outstanding result achieved and impressed with the professionalism and unrivalled skill set of Water Management Solutions and their expert water management team of professionals.

Areas of investigations included :

- Identify leaks and calculate refunds due from water companies
- Review trade effluent strengths and allowances
- Investigate surface water & highways drainage charges and seek reductions
- Identify cases of duplicate charging and incorrectly applied tariffs.
